Summary

Front-End Web Developer with expertise in building atractive web applications, such as e-commerce platforms and complex dashboards. Proficient in HTML, CSS, JavaScript, React.js, and Redux, with additional skills in TypeScript and Next.js. Experienced in front-end development. Capable of collaborating with back-end technologies such as C#, .NET, and SQL Server to build seamless and efficient applications.

Skilled in converting UI/UX designs into clean, high-quality code, integrating APIs, and optimizing user experiences. A proactive learner with strong problem-solving abilities and a collaborative mindset. Fluent in Arabic and proficient in English.

Seeking opportunities to apply and expand my expertise through challenging and innovative projects.
